SKILLS

Languages & Databases : Python, SQL, Snowflake, PostgreSQL, MySQL, SAP HANA, SQLite

ML & Libraries : Scikit-learn, XGBoost, PyTorch, HuggingFace Transformers, Pandas, NumPy, GeoPandas

Visualisation & Tools : Power BI (PL-300 Certified), Tableau, Matplotlib, Seaborn, Streamlit, Git, Docker, JIRA, Azure

EXPERIENCE

Zenatix by Schneider Electric

Nov 2022 – Jan 2024

Data Analyst

India

- Designed and deployed **35+ IoT dashboards** monitoring real-time operational data across retail and QSR sites, improving system uptime by **20%** and reducing incident response time by **30% via anomaly detection**.
- Leveraged **IoT sensor data** to identify optimisation opportunities, delivering **consistent 8–10% energy savings** per client deployment across small and mid-sized building sites.
- Produced governance **reports for 150+ client sites** and developed **data-driven business cases** for pilot projects covering energy savings, electrical health monitoring, and operational visibility.
- Maintained a **4.8/5 customer satisfaction score** across all implementations by **translating technical findings** into clear, actionable recommendations for **non-technical stakeholders**.

Accenture

Sep 2021 – Oct 2022

SAP Data & Reporting Analyst

India

- Developed automated **ETL**, extraction, and reporting **pipelines** using **SAP ABAP** and **HANA**, delivering end-to-end financial and supply chain data solutions for **10+ enterprise clients**.
- Restructured complex **SQL** queries and implemented **database indexing**, reducing report generation **latency by 15%** across high-volume financial workflows.
- Architected **large-scale datasets** within SAP HANA to ensure **data integrity**, while **collaborating** with business **stakeholders** to **translate business requirements** into technical specifications.

PROJECTS

ASX Financial News Sentiment Analyser | Python, FinBERT, PyTorch, SQLite, Streamlit, Docker | [Live](#) | [GitHub](#)

- To correlate news sentiment with ASX stock price movements, scored live headlines for CBA, BHP, NAB, WES, ANZ using **HuggingFace FinBERT (PyTorch)**, achieving **Pearson $r = +0.34$** at the 1-day return window; deployed as an interactive **Streamlit** dashboard via **Docker** on HuggingFace Spaces.

Brisbane Housing Affordability Analysis | Python, GeoPandas, Scikit-learn, Pandas, Streamlit | [Live](#) | [GitHub](#)

- To map residential dwelling supply gaps, combined Queensland Spatial Catalogue, ABS projections, and land supply data across **33 Brisbane SA2 regions** through **2046**; Random Forest achieved **83% accuracy** ($R^2 = 0.489$) labelling supply risk, deployed as an **interactive geospatial Streamlit map** for urban planners.

Calories Burnt Prediction | Python, XGBoost, Scikit-learn, Pandas, Streamlit | [Live](#) | [GitHub](#)

- To **evaluate** ML model suitability for **real-time health predictions**, benchmarked **five** algorithms on **15,000** physiological workout sessions; **XGBoost achieved $R^2=0.9990$ and MAE of 1.38 kcal**, with model comparison exposing clear **Random Forest overfitting** and deployed as an interactive **Streamlit** app.

EDUCATION

Queensland University of Technology (QUT)

Feb 2024 – Dec 2025

Master of Information Technology (Data Science)

Brisbane, Australia

Vellore Institute of Technology (VIT)

Jul 2017 – Apr 2021

Bachelor of Technology

Chennai, India

CERTIFICATIONS & ACHIEVEMENTS

Microsoft Certified: Power BI Data Analyst Associate (PL-300)

Oct 2025

Microsoft Certified: Azure Data Fundamentals (DP-900)

Apr 2026

QUT International Student Scholarship 2024 | Queensland University of Technology
